ACADEMY

UNDER

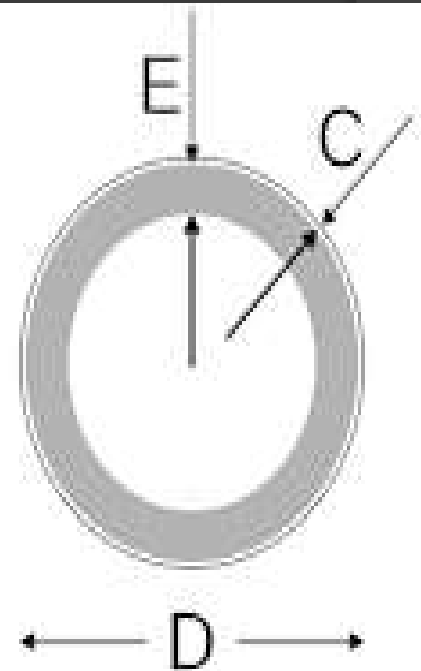

Development

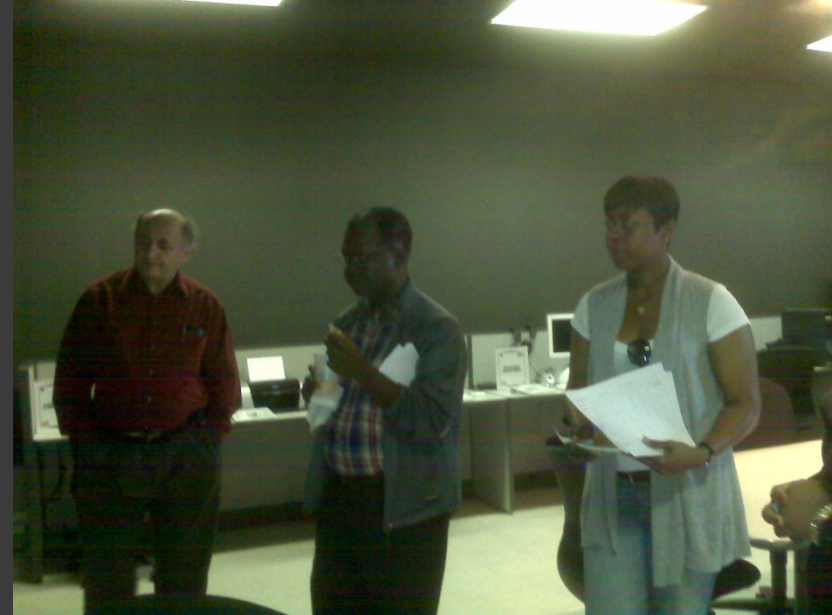

Development

Personalized Learning Environments

- Academically rigorous, curriculum
- Relevant to real-world contexts and that builds upon student and community assets.
- Interactions among and between adults and students defined by trust, respect, open communication

Aerospace Education Laboratory @ FMU

Academic Engagement of All Students

- Academic engagement is also fostered through networks of adults who actively connect students with resources, guidance, and information needed to make decisions about course-taking, post-secondary education, and career pathways.

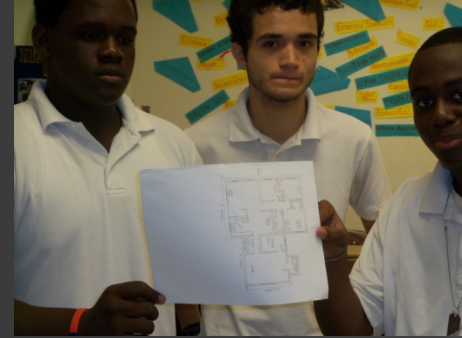

Reverse Engineering

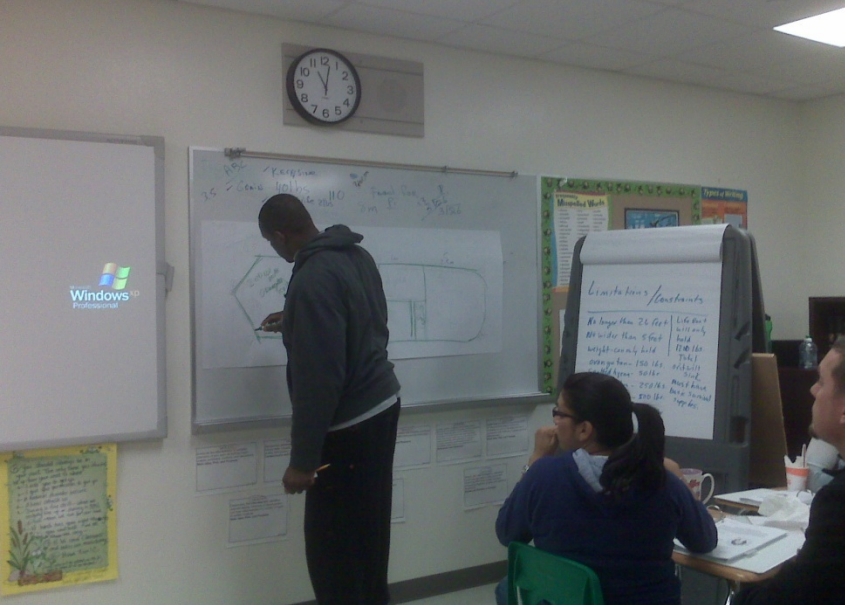

Building Green

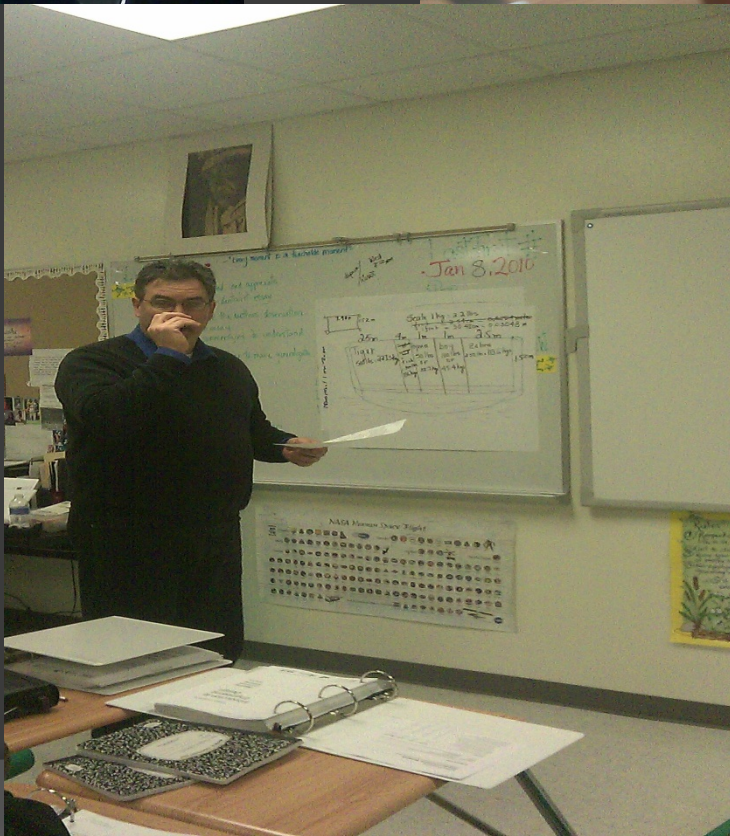

Empowered Educators

- Work collaboratively and continuously seek, share, and act on their learning in order to improve their practice for the purpose of improved student outcomes.

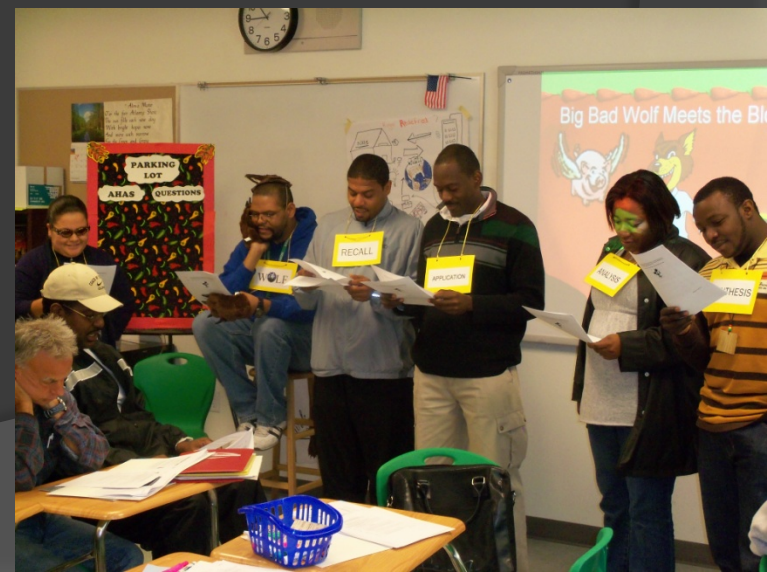

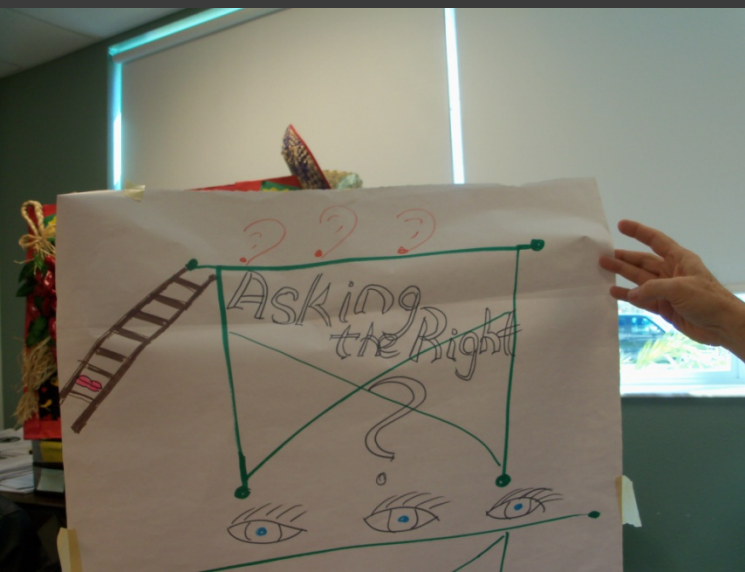

Project-Based Learning

Differentiated Instruction

Accountable Leaders

- Leaders at all levels of the education system must be accountable to, and work in partnership with, the communities and youth they serve.

CAUTION

Engaged Community and Youth

- All facets of the community are needed to articulate a shared vision for all high school-age youth and to establish a network of accountability that ensures progress towards achieving that shared vision.
